

The **Environment Hub Programme** is an online communications network run by the Yorkshire and Humber Regional Environment Forum.

Members of the programme have access to a network of organisations and individuals that will allow their project to benefit from an interested and influential community of experts and professionals in the fields of Environment and Sustainability.

iConsult YHREF combines the online ICT facilities of the Environment Hub with the reach of the YHREF network to create a **bespoke online consultancy package for Environment Hub Programme members.**

Online Features Include

- ✓ Dedicated webpage or Microsite (depending on size and scope of consultation)
- ✓ Document hosting for all strategic documents, meeting notes and supporting information
- ✓ Creation of 'web friendly' downloads
- ✓ Graphics, Charts and Images hosted individually for online browsing
- ✓ Background information & data from the Environment Hub database
- ✓ Email distribution to either a focused core (30 - 40) or to the wider stakeholder group (600+)

The Complete Package

- ✓ Offline workshops and discussion groups led by YHREF
- ✓ Collated YHREF consultation response
- ✓ Use of the YHREF Blog for online discussion of key topics
- ✓ Straw poll facility for quickly assessment of trends and

iConsult is available to all Environment Hub Programme Sponsors and Members.

Inform your decisions by talking to our stakeholders.
